

Golan Heights Hostel - 2018

The Hexagons Pool

GETTING THERE

The Hexagons (Meshushim) pool is 40 km away from Odem. An easy drive of 45 minutes.

It is also easy getting there by hitchhiking, which is very common and safe around the Golan Heights.

WHY WE LIKE IT?

For the hot summer days. Only 35 minutes walk down the canyon and the pool is cold and refreshing.

For the hikers there is a longer way down to the pool of 45-60 minutes.

Sacred Geometry

The pool is a spectacular geological phenomenon. This natural pool is walled in with hexagonal basalt pillar shaped formations. The water which comes into the Hexagons Pool in a charming waterfall has abraded the pool's eastern wall, cut the Hexagonal pillar at their base and left them hanging as a roof above the edges of the pool. The water in the pool is cool and clear and provides a refreshing dip.
